SUPPORTING STANDS AND EVENTS

Your personal Aluvision rental partner

Dear relation,

LOXO is your partner for the rental of demountable stand constructions and in addition we provide support and advice, and tell you about options.
LOXO focuses on the rental of demountable stand construction solutions.
We leave the construction of stands to our clients, as a result of which LOXO is an extension of your organization.

Hereby you receive our latest version of our price list. As usual, we have added a lot of new products to our rental package.
So enough reasons why to read our price list with attention.
For more information, please contact one of our account managers by phone: +31 (0)85 78 28 588 or send an e-mail to: info@loxo-international.com

Kind regards,

Team LOXO International B.V.

LOXO®
SUPPORTING STANDS AND EVENTS

EUROPEAN RENTAL PARTNER
ALUVISION™

The frames of LOXO are a sustainable and flexible solution

No Investment

You are not required to make any investments; instead, you can simply hire what you need.

Exactly what you need

You hire the material you require and we provide the proper types and sizes so you can build whatever you need.

Quality

We ensure you receive proper and well maintained materials.

Sustainable

Work sustainable with LOXO by using aluminum frames that can be connected over and over again.

No storage

You will not require any storage room: all you have to do is collect and return the frames.

Partner

Because we only hire materials out, you will not encounter us as a stand builder.

LOXO, WE PROVIDE THE SERVICE AND THE FLEXIBILITY YOU REQUIRE

Short-term rental

If you require materials for a short period of time, rest assured you pay us by the week for the time you require them.

Mid-term to long-term rental

You hire material by the week, and we charge an incremental discount for each following week to ensure it remains interesting for you to hire at a competitive price.

Recurring project

If you have a stand or project that will be built several times a year, we are happy to formulate a project price, to ensure you have insight into the costs and have a guarantee that the materials will always be available.

24/7 Service

Our 24/7 service is always prepared to take action should a problem arise.
24/7 service: +31 (0)85 78 28 588

Transport

LOXO is capable of organizing the right transport from or to your location against profitable prices.

Omni-55 is without a doubt our most popular profile and the go-to frame solution for the exhibit industry. This frame is only 55 mm thick and fits fabric and panel on both sides of the profile. Panels are attached with Velcro®, while fabrics are attached with a 15 mm silicone welt.
The Omni-55 system allows the user to span a single fabric across multiple frames, creating a completely seamless result. It is also possible to use panel and fabric simultaneously on the same side of a frame wall, combining the rigidity of a panel with the seamless cover of a fabric.
The profiles come with 30 mm holes set in a 62 mm grid, allowing for endless connection possibilities, creating the ultimate modular solution for the exhibit industry.
In combination with our connector tools and accessories is it possible to vary endlessly.

OMNI-55 FRAME

Omni-55 A3 telescopic frame 0558-0930 x 2480 A
Omni-55 A3 telescopic frame 0558-0930 x 2976 A

This adaptation of the classic Omni-55 profile gives the user more flexibility and allows you to build your own Omni-55 frames. Loose profiles are quickly assembled into frames using the quickfix system. After use, the frame can be disassembled and reused in other combinations to create other frame sizes.
Just like Omni-55, Omni-55+ can be used with both panel and fabric infills. Omni-55+ is the perfect solution for all odd-sized frames that you would rather disassemble after use in order to reassemble them into different combinations.

Curved frames offer the possibility to vary even more within your creations. The Omni-55 curved frames from Aluvision are available in various radii and sizes.
All curved frames are fitted with double-sided Velcro® and the majority of the radii also have tendon edges for fabrics.
Because the curved frames are part of Aluvision's ''55'' line, they can be attached to any other ''55'' profile.

The Basic-55 glass profile is the most elegant solution for the integration of glass or acrylic walls and doors into your design.
The frames ensure an elegant application of glass infills with a narrow edge to stay visually appealing. These frames are compatible with all 55 mm profiles from Aluvision.

Solid integration of glass walls and doors

- Seamless application of glass infills with a narrow edge
- Compatible with all 55 mm frames
- Elegant solution for the integration of glass or acrylic walls
- Also available as a glass door
- Thinner profile which means less aluminium visible

The Premium profile is a profile specifically used to manufacture doors.
The profile is fitted with a threaded edge for easy connection to all other profiles and the part of the profile that is visible when the door is opened has a clean finish without holes.
In addition to the premium doors, we also have sliding doors, glass doors and double doors available.

- One modular door for all solutions, flush on both sides
- Double door, glass door, hybrid door with fabric & panels = endless possibilities
- Right & left door hinge
- Key or electronic handle
- Possible with or without window

The Omni-55 cover profile is a sleek, slightly curved profile that can be used with any 55 mm profile as a means to cover up the drill holes. It is most commonly used as a finish on Omni-55 frames, in which case it is attached with a simple Cover Clip. Using a cover profile guarantees a premium finish on your Aluvision structure.

The Basic-186 cover is a 186 mm wide cover that can be used in combination with all 55 mm and 186 mm profiles. The ideal solution to cover up a double row of 55 mm frames or to combine a 186 mm wide profile with a row of 55 mm profiles. For arches with straight or rounded corners.

The Omni-248 cover serves perfectly as a stylish finishing for larger constructions or spans, while simultaneously adding extra reinforcement.

Illuminate your large format graphics and boost your commercial message. By using the LED edge lighting technology, the packaging volume has been reduced to a minimum. Installation takes nothing more than assembling four aluminium profiles into a lightweight, yet rigid frame and attaching a SEG (Silicone Edge Graphic), without requiring any tools. The high quality LEDs ensure an intense anduniform illumination for light walls up to 4 m.

Boost your tradeshow presence by integrating in the Hi-LED 55 range into any setup you can think of. Choose wall, display, ceiling, floor or hanging constructions to bring your creative ideas to life.
Be ahead of the curve with our new Hi-LED 55 convex and concave tiles. Available in three radii, these curved tiles can give your design a new twist.

The thinnest LED tile on the market, which can be integrated into a modular building system.
Fully compatible with the original Aluvision frame system.

Hi-LED 55 LED TILES

How to order

Through the webshop
Go to: www.loxo-international.com or scan the code at the back of this brochure:
- Go to the webshop
- Add products to your quotation
- Check your quotation and fill in the details
- Choose between delivery or pickup
- Add a reference and possible remarks
- Send it!
- Ready

By mail
Please send your order by e-mail, including the following information:
- The requested materials and the correct quantity
  - Please remember to order the accessories for adequate installation and connections
  - We are not responsible for equipment that was not ordered
- Dates of shipment
- Name exhibition/event
- Pick up or delivery
  - Name of the venue
  - Delivery address & Delivery details
  - Contact & Contact details
- Receive the quote the next working day.

Quotation

The quotation only provides prices for the requested equipment but does not make a reservation. Therefore, if you agree with the terms and conditions on the quotation, you can then confirm the offer online. If you do not confirm the order before the expiration date, the materials will become available again for other clients.

How to confirm

Orders are immediately entered into our system and will block the requested materials for the specified period **till the expiration date**. The quotation will be e-mailed to the client for a final check of the materials and dates. You must confirm the order online with name and signature for approval, checking the P.O. number, Reference and e-mail address for invoice.

Pick up and return date/time

Equipment pick up: Not earlier than 13:00 H (on the date specified on the order).
Equipment return: Not later than 12:00 H (on the date specified on the order).

General terms

- At all times, the rented goods remain the full property of LOXO International BV. The client is liable at all times for damage to, loss or theft of the rented goods until such goods are returned to the warehouse of LOXO. The client will promptly re any damage to, or loss of rented goods to LOXO. The client will return such goods immediately to LOXO and will compensate LOXO for the costs of repair or replacement and for the loss rental income during the period required for repair or replacement, to the extent such period exceeds the rental period agreed and paid for by the client.

- The client is personally responsible for all damage caused by materials of LOXO, regardless of their condition. The client will insure itself against such damage caused by its own actions or defects in the materials.

- All rented goods have been inspected in accordance with Dutch legislation. The client is personally responsible for all necessary inspections on site and all licenses and/or authorizations regarding the use of the rented goods.

- The client must verify that he/she receives the rented goods in good condition. The acceptance of goods by client or its transer without including any remark on the bill of loading, or the receipt, or any other form of confirmation of receipt, serves as proof that the consignment is delivered complete and in good condition.

- All goods must be returned in original condition: repairs, renovations or other modifications applied by the client or third parties to the goods are not expressly prohibited without consent of LOXO, and every potential damage and/or costs resulting therefrom will be recovered from the client.

- Late return of the rented goods is at all times charged to the client and increased with the costs resulting therefrom.

- If LOXO cannot meet its delivery obligations, for whatever reason, LOXO will inform the client thereof as soon as practically possible and will suggest potential alternatives. If these alternatives are not accepted by the client, the client will only have the right to terminate the agreement without incurring any futher charges. Any futher liability or compensation from LOXO is excluded.

- All invoices are payable in cash or bank transfer in advance, unless a specific payment term has been agreed to LOXO in writing.
